☎ +918421828974 ✉ varadalshi7@gmail.com 💻 varadalshi 🌐 VaradCodes31 📍 Pune, India

SKILLS

Programming Languages :	Java, Python, C, C++, SQL, R
Frameworks & Libraries :	Flask, FastAPI, Scikit-learn, Streamlit, Pandas, NumPy, Matplotlib, Seaborn
Tools & Platforms :	Git, VS Code, Visual Studio, PyCharm, IntelliJ, Eclipse, MongoDB Compass, MongoDB Atlas
Databases :	MySQL, MongoDB
Soft Skills :	Communication, Teamwork, Problem Solving, Adaptability, Critical Thinking, Time Management
Languages :	English, Marathi, Hindi, German

PROJECTS

Netsage IDS - Explainable Intrusion Detection System | Github Feb 2026 - Mar 2026

Developer

- Built a multi-class intrusion detection system using CICIDS2017 (2.8M+ flows) with XGBoost, achieving **99.88% accuracy**.
- Integrated **SHAP-based explainability** to provide global and local insights into model predictions.
- Developed **attack feature profiling** to identify key characteristics of different cyber-attacks using XAI.
- Designed a **Streamlit-based cybersecurity dashboard** for real-time detection, visualization, and SOC-style analysis.

Technologies / Tools Used : Python, XGBoost, Scikit-learn, SHAP, Streamlit, Pandas, NumPy, Matplotlib

BlockGuard - Smart Contract Vulnerability Detection System | Github Jan 2026 - Mar 2026

Developer

- Developed an **AI-powered system** to detect vulnerabilities in Ethereum smart contracts using **opcode-level analysis** and **LSTM-based deep learning**, achieving **83% classification accuracy**.
- Engineered a **hybrid explainability framework** with **gradient-based attribution**, **opcode frequency analysis**, and **rule-based insights** for actionable security explanations.
- Built an **interactive Streamlit** dashboard for **real-time bytecode analysis**, featuring opcode heatmaps and risk-level classification to assist developers.

Technologies / Tools Used : Python, Tensorflow, Scikit-learn, Streamlit, Numpy, Pandas

WORK EXPERIENCES

Data Science and Machine Learning Work Experience Program Feb 2025 - Apr 2025

Finlatics

- **Completed** the Finlatics Data Science with Python program, Feb 2025 - Apr 2025.
- **Executed** data analysis projects, translating business goals into **data-driven solutions**.
- **Utilized** Python and statistical methods to extract insights from **complex datasets**.
- **Enhanced** decision-making through **critical thinking** and **innovative problem-solving**.

Technologies / Skills Used : Python, Numpy, Pandas, Matplotlib, Seaborn

EDUCATIONS

Dr. Vishwanath Karad MIT World Peace University Jun 2020 - Jun 2023

Bachelor of Technology in Computer Science

CGPA : 8.72

EXTRA-CURRICULARS

- **Lead** the Design and Content Team since **June 2025**, overseeing **technical communication** and visual branding initiatives for GDGoC.
- **Create** engaging technical and developer-focused content for the past **two years**, contributing to community learning and visibility.
- **Authored** and published posts on the club's official social media platforms, driving higher **engagement** and outreach among student developers.
- **Volunteered** at large-scale events including WOW Pune, a city-wide developer conference, supporting **content** and coordination efforts.
